Product Factsheet

Williams WS4

Wall Mount Dries 4 Sets of Gear (Coat, Bunkers, Boots & Gloves).

• Safe and Efficient Drying

Direct Drying focuses a stream of air to the most difficult area of the Gear to dry. The warmed air is delivered at a safe temperature to save sensitive fabrics and prolong equipment life. Boots/Gloves are stored upside down to protect against debris from above.

• Proven Health Benefits

Williams Direct Drying has been proven under laboratory conditions to efficiently help eliminate harmful pathogens in personal protective equipment.*

• Controls “Locker Room” Odour

Continuously dried personal protective equipment helps eliminate the bacteria associated with locker room odour.

• Built-in Energy Management

Depending on your drying requirements, air is either delivered at 10-15°F (6-8°C) above room temperature or at room temperature for more economical operation.
