## Product Factsheet

### Williams WS5

*Wall Mount Dries 5 Sets of Gear (Coat, Bunkers, Boots & Gloves).*

- **Safe and Efficient Drying**

Direct Drying focuses a stream of air to the most difficult area of the Gear to dry. The warmed air is delivered at a safe temperature to save sensitive fabrics and prolong equipment life. Boots/Gloves are stored upside down to protect against debris from above.

- **Proven Health Benefits**

Williams Direct Drying has been proven under laboratory conditions to efficiently help eliminate harmful pathogens in personal protective equipment.\*

- **Controls “Locker Room” Odour**

Continuously dried personal protective equipment helps eliminate the bacteria associated with locker room odour.

- **Built-in Energy Management**

Depending on your drying requirements, air is either delivered at 10-15°F (6-8°C) above room temperature or at room temperature for more economical operation.
